

Making a Difference Family by Family

A resource for families to help find the assistance they need for their child with special needs to grow up with their families, in their communities and to fulfill the promise of their own life.

The Health Information Center

Partnering with professionals and families to advocate for a system of health services that work for our children with special health care needs.

- ♥ Provide a resource for families who have children with special health care needs.
- ♥ Assist parents to better understand the current trends and issues associated with their child's health care needs.
- ♥ Assist parents to be able to care for their child's health care needs.
- ♥ Assist parents to naturally integrate their child's health care needs so they can meaningfully participate in school and in the community.
- ♥ Provide technical assistance and training to parents and professionals to enhance family support, advocacy and coordinated services.
- ♥ Provide direct family to family support.
