### THE HISTORY OF "TOGETHER WE CAN"

During particularly tough economic times, a parent leadership group sought to develop a statewide conference for families of children, youth and young adults with disabilities based on statewide data that supported a strong desire for this type of event. Families were looking for an opportunity to network, learn, and grow together. However, planning and executing a statewide conference was beyond the resources of any single organization or family involved. It was then the group realized a village of organizations and families working *together* could make this conference a reality. Several years have passed and the conference continues to grow. Together We Can is a one-of-a-kind networking and leadership event created by and for families of children, youth and young adults with special needs all across Iowa.
