## **The History of “Together We Can”**

During particularly tough economic times, a parent leadership group recognized the need for a statewide conference for families of children, youth, and young adults with disabilities. Statewide data highlighted a strong desire for an event where families could network, learn, and grow together. However, planning and executing such a conference was beyond the resources of any single organization or family.

Realizing the power of collaboration, a village of organizations and families came together to make the conference a reality. Several years later, the Together We Can Conference has grown into a one-of-a-kind networking and leadership event. Created by and for families of children, youth, and young adults with special needs, this conference continues to provide invaluable opportunities for learning and connection across Iowa.
